NOT ONE MORE EXECUTION IN IRAN

~* NO MORE TORTURE IN IRAN *~

FREE ALL POLITICAL PRISONERS

The Islamic Republic of Iran has a 30 year history of using execution to terrorize the Iranian people and to silence dissidents. Its use of execution as a weapon of terror reached its historical peak in 1988 when tens of thousands of political prisoners were peremptorily executed and buried in unmarked mass graves.

In the wake of the unrest caused by the June 2009 elections in Iran, the Islamic Republic has begun calling for a return to the methods used in 1988 to implement these mass executions.

~* They target women's rights, student and labor activists in their crackdowns. *~
